

BIBLIOGRAPHY OF

CHARLES-EDWARD ARMORY WINSLOW*

- 1896
- 1 *Magda*; a Play in Four Acts. Transl. of *Heimath* by Hermann Sudermann. Boston, Lamson, Wolfe & Co.; 1899, New York & London, S. French, Ltd.
- 1901
- 2 Typhoid fever at Newport, Rhode Island, in 1900 and its relation to defective sanitation. *Techn. Quart.*, 14, 110-23.
- 3 The bacteriological analysis of water and its interpretation. *J. New England Water Works Asso.*, 15, 459-82.
- 1902
- 4 History of the Prince School in the City of Boston, 1872-1902. Boston, Publ. by the Prince School Asso.
- 5 (with Miss M. P. Hunnewell): Streptococci characteristic of sewage and sewage-polluted waters apparently not hitherto reported in America. *Science*, n.s., 15, 1-2.
- 6 (with A. G. Woodman and Paul Hansen): A study of self-purification in the Sudbury river. *Techn. Quart.*, 15, 105-26.
- 7 (with W. T. Sedgwick): I. Experiments on the effect of freezing and other low temperatures upon the viability of the bacillus of typhoid fever, with considerations regarding ice as a vehicle of infectious disease. II. Statistical studies on the seasonal prevalence of typhoid fever in various countries, and its relation to seasonal temperature. *Mem. Am. Acad. Arts & Sci.*, 12, 469-577.
- 8 A statistical study of the fatality of typhoid fever at different seasons. *Quart. Publ. Am. Stat. Asso.*, n.s., 8, 103-25.
- 9 (with Miss M. P. Hunnewell): A study of the distribution of the colon bacillus of Escherich and of the sewage streptococci of Houston in polluted and unpolluted waters. *J. Med. Res.*, 8 (n.s. 3), 502-32.
- 10 (with W. T. Sedgwick): On the relative importance of public water supplies and other factors in the causation of typhoid fever. *Trans. Am. Pub. Health Asso.*, 28, 288-95.
- 1903
- 11 The war against disease. *Atlantic Monthly*, 91, 43-52.
- 12 The case for vaccination. *Science*, n.s., 18, 101-07.
- 13 (with C. P. Nibecker): The significance of bacteriological methods in sanitary water analysis. *Techn. Quart.*, 16, 227-39.
- 14 The engineer in preventive medicine. *Pub. Works*, 2, 1-7.
- 15 The occurrence of the colon bacillus on the hands. *J. Med. Res.*, 10 (n.s. 5), 463-71.
- 1904
- 16 (with D. M. Belcher): Changes in the bacterial flora of sewage during storage. *J. Infect. Dis.*, 1, 170-92.
- 17 The sanitary dangers of certain occupations. *J. Massachusetts Asso. Bds. Health*, 14, 1-9.
- 18 (with P. Hansen): Some statistics of garbage disposal for the larger American cities in 1902. *Am. Pub. Health Asso. Rep.*, 29, 27.
- 19 (with W. L. Underwood): The sanitary problems relating to the Fresh Pond Marshes and Alewife Brook. Appendix No. 2 to *Report on Improvement of the Upper Mystic River and Alewife Brook* by John R. Freeman. Boston, Metropolitan Park Comm., Sept. 21, 95-107.

* Prepared by Eleanor M. Watkins and Jean H. Nelbach.

- 20 (with Samuel C. Prescott): *Elements of Water Bacteriology with Special Reference to Sanitary Water Analysis*. New York, John Wiley & Sons, pp. x+162; 1908; 1913, pp. xiv+318; 1924, pp. ix+211; also London, Chapman & Hall, 1931, pp. ix+219; 1946, pp. xiv+368.

1905

- 21 (with Anne F. Rogers): A revision of the Coccaceae. Preliminary communication. *Science*, n.s., 21, 669-72.
 22 (with Earle B. Phelps): The chemical and bacterial composition of the sewage discharged into Boston harbor from the south metropolitan district: with special reference to diurnal and seasonal variations. *Contr. San. Res. Lab. and Sewage Exper. Sta.*, 1, 7; *J. Infect. Dis.*, Suppl. No. 1, 175-208.
 23 The number of bacteria in sewage and sewage effluents determined by plating upon different media and by a new method of direct microscopic enumeration. *Contr. San. Res. Lab. and Sewage Exper. Sta.*, 1, 41; *J. Infect. Dis.* Suppl. No. 1, 209-28.
 24 (with G. E. Willcomb): Tests of a method for the direct microscopic enumeration of bacteria. *Contr. San. Res. Lab. and Sewage Exper. Sta.*, 1, 119; *J. Infect. Dis.*, Suppl. No. 1, 273-83.
 25 A winter visit to some sewage disposal plants in Ohio, Wisconsin, and Illinois. *J. Asso. Engr. Soc.*, 34, 335-61.
 26 The deeper significance of scientific education. *Techn. Rev.*, 7, 3-10.
 27 The scientific disposal of city sewage: Historical development and present status of the problem. *Techn. Quart.*, 18, 317-32.
 28 *Elements of Applied Microscopy*. New York, John Wiley & Sons, London, Chapman & Hall, pp. xii+183.
 29 (with Earle B. Phelps): Experiments on the purification of Boston sewage, 1903-1905. *Proc. Am. Pub. Health Asso.*, 31, 16.

1906

- 30 (with W. T. Sedgwick): On the present relative responsibility of public water supplies and other factors for the causation of typhoid fever. *J. New England Water Works Asso.*, 20, 51-88.
 31 (with E. E. Lochridge): The toxic effect of certain acids upon typhoid and colon bacilli in relation to the degree of their dissociation. Boston, *Biological Studies by the Pupils of William Thompson Sedgwick*, pp. 258-82.
 32 (with Anne F. Rogers): A statistical study of generic characters of the Coccaceae. Boston, *Biological Studies by the Pupils of William Thompson Sedgwick*, pp. 146-207.
 33 The teaching of biology and sanitary science in the Massachusetts Institute of Technology. *Techn. Quart.*, 19, 416-25.
 34 (with Earle B. Phelps): Investigation on the purification of Boston sewage: with a history of the sewage disposal problem. *Contr. San. Res. Lab. and Sewage Exper. Sta.*, 2; *Water Supply and Irrigation Paper No. 185*, U. S. Geol. Surv., Washington, pp. 163; *House Document No. 70*, 59th Cong., 2nd Sess.
 35 (with Earle B. Phelps): The trickling filter at the sewage experiment of the Massachusetts Institute of Technology. *Engr. News*, 56, Aug. 16.

1907

- 36 (with Earle B. Phelps): On the use of methylene blue in testing sewage effluents. *J. Infect. Dis.*, Suppl. No. 3, 1-13.
 37 Public health and safety. 33 (Legislation) *Bull. New York State Lib. Rev. of Legislation* 1905-06, 45-54.
 38 Disposal of sewage. Paper read at the ninth annual School for Instruction of Health Officers, Burlington, Vermont, June 19, 1907. *Vermont State Bd. Health*, 8, *Bull. No. 1*, 3-12.
 39 (with Earle B. Phelps, C. F. Story, and H. C. McRae): Studies of sewage distributors for trickling filters. *Contr. San. Res. Lab. and Sewage Exper. Sta.*, *Techn. Quart.*, 20, 325-74.

- 40 (with Earle B. Phelps): Investigations on the purification of Boston sewage in septic tanks and trickling filters (1905-1907). Contr. San. Res. Lab. and Sewage Exper. Sta., Techn. Quart., 20, 387-452.
- 41 (with L. T. Walker): Note on the fermentative reactions of the *B. coli* group. Science, n.s., 26, 797-9.

1908

- 42 (with Earle B. Phelps): Purification of Boston sewage: Experimental results and practical possibilities. J. Asso. Engr. Soc., 40, 28-52.
- 43 (with S. C. Prescott): The relative value of dextrose broth, phenol broth and lactose bile as enrichment media for the isolation of *B. coli*. Am. J. Pub. Hyg., 18 (n.s. 4), 19-30.
- 44 Some factors in the spread of typhoid fever. Am. J. Pub. Hyg., 18 (n.s. 4), 131-36.
- 45 A new method of enumerating bacteria in the air. Science, n.s. 28, 28-31.
- 46 (with A. F. Winslow): *Systematic Relationships of the Coccaceae, With a Discussion of the Principles of Bacterial Classification*. New York, John Wiley & Sons. pp. viii+300.
- 47 A method for determining the number of dust particles in air. Engr. News, 60, 748.
- 48 The cash value of factory ventilation. Contr. from the Res. Dept., Boston School for Social Workers. Proc. 6th Int. Cong. Tuberc., 3, 184-89.

1909

- 49 A statistical criterion for species and genera among bacteria. Bull. Torrey Botanical Club, 36, 31-9.
- 50 (with L. T. Walker): A case of non-inheritance of fluctuating variations among bacteria. J. Infect. Dis., 6, 90-7.
- 51 Occupational disease and economic waste. Atlantic Monthly, 103, 679-84.
- 52 The carriage of bacteria by air-currents in house drainage systems. Boston, Nat. Asso. Master Plumbers of the U. S. Rep. Sanitary Committee, 1907-08-09, 4-22.
- 53 The sanitary significance of bacteria in the air of drains and sewers. Boston, Nat. Asso. Master Plumbers of the U. S. Rep. Sanitary Committee, 1907-08-09, 39-85.
- 54 Sewage disposal in the United States. Zentralbl. f. Wasserversorgung u. Beseitigung flüssiger u. fester Abfallstoffe, Bd. 2, 149-55.

1910

- 55 (with G. T. Palmer): A comparative study of intestinal streptococci from the horse, the cow, and man. J. Infect. Dis., 7, 1-16.
- 56 (with E. A. Robinson): An investigation of the extent of the bacterial pollution of the atmosphere by mouth spray. J. Infect. Dis., 7, 17-37.
- 57 (Chairman): Report of the committee on standard methods for the examination of air. Am. J. Pub. Hyg., 20 (n.s. 6), 346-60.
- 58 (with Earle B. Phelps): The new sewage experiment station of the Massachusetts Institute of Technology. Engr. News, 63, 652-53.
- 59 William A. Evans and the health department of Chicago. World Today, 19, 730-34.
- 60 Water pollution and water purification at Jersey City, New Jersey. J. Western Soc. Engr., 15, pp. 24.
- 61 The field for water disinfection from a sanitary standpoint. Urbana, Illinois. Proc. 2nd Meeting Illinois Water Supply Asso., 185-93.
- 62 Public health and safety. 34 (Legislation) Bull. New York State Lib. Rev. of Legislation, 1907-08, 93-104.
- 63 (with Leonard P. Kinnicutt and R. W. Pratt): *Sewage Disposal*. New York, John Wiley & Sons. pp. xxvi+436; 1913; 1919, pp. xvii+547.
- 64 Waste of life capital in American industries. Proc. 1st Ann. Conf. Mayors of the Cities of New York State, 51-8.
- 65 Unsolved problems of sewage disposal. Trans. Am. Inst. Chem. Engr., 3, 385-98.

1911

- 66 Educational opportunities of the health department. J. Am. Pub. Health Asso., 1 (o.s. 7), 77-9.

- 67 Technology and the public health. *Advance New England*, 2, 188-92.
- 68 (with Earle B. Phelps): Investigations on the purification of Boston sewage. *J. Infect. Dis.*, 8, 259-88.
- 69 Protection of river and harbor waters from municipal wastes, with special reference to the conditions in New York. New York, Am. Mus. Nat. Hist., No. 33 Guide Leaflet Series. pp. 27.
- 70 Factory sanitation and efficiency. Boston, Proc. Cong. of Techn., April 10; *Technology and Industrial Efficiency*. New York, McGraw-Hill Book Co. pp. 442-48; partially reprinted *Engr. Rec.*, 63, 533; *Indus. Engr.*, 9, 459; 1912, Washington, Smithsonian Inst. Ann. Rep., Pub. 2128, 611-16.
- 71 (R. S. Tracy, Chairman): Report of the advisory committee of statisticians. New York Bd. Health, June 20; *Monthly Bull. Dept. Health*, City New York, 1, 153-66.
- 72 The scientific basis for ventilation standards. Report of Committee on Efficiency of Janitor Service. San Francisco, Proc. Nat. Educ. Asso., July, 977-85; *School Bd. J.*, 43, 13.
- 73 The role of the visiting nurse in the campaign for public health. *Am. J. Nursing*, 11, 909-20.
- 74 [Articles on] E. G. Conklin, Disinfectants, Disinfection, Epidemic, Filter, Filtration, Immunity, Infection, Public Health, Public Health Association. *Nelson's Loose-Leaf Encyclopedia*. New York and Edinburgh, Thos. Nelson & Sons.
- 75 Industrial hygiene. Boston, Health Educ. League. *Health Educ. Ser. No. 24*. pp. 40.
- 76 The relation between bad ventilation and infant mortality. *Trans. 2nd Ann. Meeting Am. Asso. Study and Prevention Infant Mortality*, Nov. 16-18. pp. 8.
- 77 Factors of sanitary safety in a natural ice supply. New York, Natural Ice Asso. Am. 3rd Ann. Meeting, 187-93.
- 78 Practical possibilities in the purification of municipal sewage. Baltimore, Nat. Asso. for Preventing Pollution of Rivers and Waterways. Dec., 19-27.
- 79 Heredity as an experimental science. *Science Conspectus*, 2, 1-6.
- 80 Disposal of city sewage. Chapter 18 in *Municipal Chemistry*, edit. by Charles Baskerville. New York, McGraw Hill Book Co. pp. 276-99.

1912

- 81 An outbreak of tonsilitis or septic sore throat in eastern Massachusetts and its relation to an infected milk supply. *J. Infect. Dis.*, 10, 73-112.
- 82 The movement for scientific internationalism at the Hague. *Science*, n.s., 35, 293-96.
- 83 Civic biology. *Am. Teacher*, 1, 38-9.
- 84 The classification of the streptococci by their action upon carbohydrates and related organic media. *J. Infect. Dis.*, 10, 285-93.
- 85 (with F. Abramson): The effect of drying upon the viability of bacteria. *Proc. Soc. Exper. Biol. & Med.*, 9, 107-8.
- 86 Temperature and humidity in factories. New York, Proc. 2nd Nat. Conf. on Ind. Dis., Am. Asso. Labor Legislation. Pub. No. 17; *Am. Labor Legislation Rev.*, 2, 297-304.
- 87 (with I. J. Kligler): A quantitative study of the bacteria in city dust with special reference to intestinal and buccal forms. *Am. J. Pub. Health*, 2, 663-701.
- 88 New ideas in ventilation. *Am. Teacher*, 1, 136-7.
- 89 The new art of ventilation. *Med. Rev. Revs.*, 18, 670-7; *Engr. News*, 68, 996-1000; 1913. *Trans. 15th Internat. Cong. Hyg. and Demog.*, 4, 560-70.

1913

- 90 The prevention of industrial poisonings. Original communications, 8th Internat. Cong. Applied Chem., 26, 309-18.
- 91 (with Hermann M. Biggs): An ideal health department. Minneapolis, Rep. to Minneapolis Civic and Commerce Asso., and Woman's Club of Minneapolis. pp. 36.

- 92 The health of the worker: dangers to health in the factory and shop and how to avoid them. New York, Metropolitan Life Ins. Co., pp. 24; Les dangers auxquels la santé est exposée dans les Manufactures et les Ateliers, et comment les éviter. New York, Metropolitan Life Ins. Co., pp. 24; 1919, Rev., pp. 23.
 - 93 The training of nurses for public health inspection. Pub. Health Nurse Quart., 5, 43-9.
 - 94 An insect-borne disease—infant paralysis. Am. Mus. J., 13, 229-35.
 - 95 Efficiency in the public health campaign. N. Am. Rev., 192, 761-73; New York State Dept. Health, Spec. Bull. No. 3 (Suppl. to Health News for June, 1914), pp. 14.
 - 96 (with Charles Baskerville): The air of New York City schools. New York, Rep. Committee on School Inquiry, Bd. of Estimate and Apportionment, 1911-13, 3, 607-702.
 - 97 Fresh air and health. 4th Ann. Conf. State and Local Bds. Health in New Jersey, 47-52.
 - 98 Museum cooperation in the teaching of school hygiene and sanitation. Trans. 4th Internat. Cong. on School Hyg., 3, 52-62; Am. Mus. J., 13, 317-22.
 - 99 School ventilation in New York City. Heat. & Vent. Mag., 10, 20-28; Am. J. Pub. Health, 3, 1158-75.
 - 100 The place of the pure food agitation in the public health campaign. [Editorial] Am. J. Pub. Health, 3, 1022-26.
 - 101 The public health nurse and her preparation for her calling. Bull. Nat. Organ. Pub. Health Nursing, 1, 1-10.
 - 102 The bacteriology and sanitary significance of sewer air. Monthly J. Engr. Club of Baltimore, 3, 3-4.
- 1914
- 103 The characterization and classification of bacterial types. Science, n.s., 39, 77-90.
 - 104 Letting in the light and air. Sunday School Times, 56, 118; 128.
 - 105 Sanitation of the school building. Monthly Bull. New York State Dept. Health. Health News, n.s., 9, 73-7 (Full Ser. 30, March).
 - 106 Pure food and public health. Proc. 39th Ann. Meeting New Jersey San. Asso., 18-28.
 - 107 The New York State commission on ventilation and its problems. J. Indust. & Engr. Chem., 6, 255-64.
 - 108 Clean milk and safe milk. Monthly Bull. New York State Dept. Health. Health News, n.s., 9, 157-61 (Full Ser. 30, May).
 - 109 Season and disease. Monthly Bull. New York State Dept. Health. Health News, n.s., 9, 190-93 (Full Ser. 30, June).
 - 110 Public health education in the United States. J. Roy. San. Inst., 35, 263-71.
 - 111 Man and the microbe. Pop. Sci. Monthly, 85, 5-20.
 - 112 [Articles on] Diphtheria, Plague, Syphilis, Typhoid fever, Typhus fever, Yellow Fever. Nelson's *Loose-Leaf Encyclopedia*. New York & Edinburgh, Thos. Nelson & Sons.
 - 113 Euthenics. Wood's *Reference Handbook of the Medical Sciences*, 159-64.
 - 114 (with W. W. Brown): The microbic content of indoor and outdoor air. Washington, Monthly Weather Rev., 42, 452-3.
 - 115 The importance of studying the actual condition of hospital air. J. Am. Med. Asso., 63, 1621-3.
 - 116 Public health education in New York State. Monthly Bull. New York State Dept. Health. Health News, n.s., 9, 359-64 (Full Ser. 30, Nov.).
- 1915
- 117 (with G. F. Maglott): A study of heating and ventilating conditions in a large office building. Heat. & Vent. Mag., 12, 26-31.
 - 118 Ventilation and sanitation of school houses. School & Society, 1, 190-6.
 - 119 Guarding the health of armies. Am. Mus. J., 15, 67-71.
 - 120 (Chairman): Some results of the first year's work of the New York State Commission on Ventilation. Am. J. Pub. Health, 5, 85-118.
 - 121 The pure food law in its economic and public health aspects. Proc. 5th New York City Conf. of Charities, 20-8.

- 122 (with others): Third progress report of the Committee on Standard Methods for the Examination of Air. *Am. J. Pub. Health*, 5, 250-4.
- 123 Mobilizing the boys for public health. *Monthly Bull. New York State Dept. Health. Health News*, n.s., 10, 78-81 (Full Ser. 31, March).
- 124 Community defense of national vitality. *Pop. Sci. Monthly*, 86, 319-24.
- 125 Organizing a community for public health. *Monthly Bull. New York State Dept. Health. Health News*, n.s., 10, 109-11 (Full Ser. 31, April).
- 126 Standards of ventilation in the light of recent research. *Science*, n.s., 41, 625-32.
- 127 The experimental plant of the New York State Commission on Ventilation. *Proc. Soc. Exper. Biol. & Med.*, 12, 111-13.
- 128 Fresh air in the light of recent research. *J. Outdoor Life*, 12, 149-53; 157.
- 129 What the individual should know about public health. *Proc. 15th New York State Conf. Charities and Correction*, 148-54.
- 130 (with G. T. Palmer): The effect upon appetite of the chemical constituents of the air of occupied rooms. *Proc. Soc. Exper. Biol. & Med.*, 12, 141-4.
- 131 (with L. W. Hubbard): A contact outbreak of septic sore throat in Westchester County. *Monthly Bull. New York State Dept. Health. Health News*, n.s., 10, 266-70 (Full Ser. 31, Sept.).
- 132 Organizing a state campaign of public health education. *Am. J. Pub. Health*, 5, 805-13.
- 133 Problems of public health education. *Albany Med. Ann.*, 36, 473-9.
- 134 The neutrality of the churches in the war against disease. *Constructive Quart.*, 3, 834-50.

1916

- 135 (with L. W. Hubbard): Epidemiology and symptomatology of an outbreak of septic sore throat in Westchester County, New York. *J. Infect. Dis.*, 18, 106-17.
- 136 Preventive philanthropy improving the condition of the poor at long range. *Pub. Health J.*, 7, 11-18.
- 137 (with James A. Miller and W. C. Noble): The effect of moderately high atmospheric temperatures upon the formation of hemolysins. *Proc. Soc. Exper. Biol. & Med.*, 13, 93-8.
- 138 The laboratory in the service of the state. *Am. J. Pub. Health*, 6, 222-33.
- 139 The kata thermometer as a measure of the effect of atmospheric conditions upon bodily comfort. *Science*, n.s., 43, 716-19.
- 140 (with James A. Miller and W. C. Noble): The effect of moderately high atmospheric temperatures upon the formation of agglutinins. *Proc. Soc. Exper. Biol. & Med.*, 13, 194-7.
- 141 The health budget and its apportionment. 35th Ann. Rep. New York State Dept. Health for 1914, 636-41.
- 142 [Articles on] Bacteria, Hygiene, Paratyphoid fever, Sanitary Science. *Nelson's Loose-Leaf Encyclopedia*. New York & Edinburgh, Thos. Nelson & Sons. 1916-17.
- 143 A garden of germs. *Am. Mus. J.*, 16, 295-300.
- 144 Organizing a state campaign of public health education. *Am. J. Pub. Health*, 6, 805-13.
- 145 Public health in the past and in the future. *J. Home Econ.*, 8, 513-20.
- 146 Tests for *Bacillus coli* as an indicator of water pollution. *J. Am. Water Works Asso.*, 3, 927-46.
- 147 Sanitary surveys of institutions. *Bull. Am. Home Econ. Asso.*, Proc. 9th Ann. Meeting, Ser. 4, No. 5, 36-45.

1917

- 148 (Chairman): Final report of the Committee on Standard Methods for the Examination of Air. *Am. J. Pub. Health*, 7, 54-72.
- 149 Effect of atmospheric conditions upon fatigue and efficiency. *Monthly Rev. U. S. Bur. Labor Statistics*, 4, 283-90; *Factory*, 18, 190; *Am. J. Pub. Health*, 7, 827-34.
- 150 (with others): Infantile paralysis—a round-table discussion. *Am. J. Pub. Health*, 7, 117-43.
- 151 Recent advances in the improvement of water supplies. *Proc. 32nd Ann. Meeting Connecticut Soc. Civil Engrs.*, 17-27.

- 152 What to do first for public health. Off. Rep. 13th Bienn. Convention Gen. Fed. Women's Clubs, 389-97.
- 153 President's address. Rep. 6th Ann. Meeting Connecticut Soc. Social Hyg., 8-12.
- 154 (with James C. Greenway and David Greenberg): Health Survey of New Haven; a report presented to the Civic Federation of New Haven. New Haven, Yale Univ. Press. pp. 114.
- 155 *Healthy Living: The Body and How to Keep it Well*. New York and Chicago, Charles E. Merrill Co. pp. 385; 1918; 1920, enl. edit.; 1925, also Spanish edit., *Vida Saludable*.
- 156 Handbook of health in war and peace. A manual of personal preparedness. Am. Mus. Nat. Hist. Handbook Ser. No. 6, 1-51.
- 157 A biologist's reasons for belief in equal suffrage. A 5-minute talk before the New Haven Equal Franchise League. pp. 4.
- 158 (Chairman): The families and genera of the bacteria. Preliminary report of the Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial types. J. Bact., 2, 505-66.
- 159 The new profession of public health nursing and its educational needs. Washington, Proc. 2nd Pan American Scient. Congr. Sect. IV, Part II, 5, 330-36.
